

## LECTRA SOL TC

### Safety Solvent & Cleaner/Degreaser

---

#### DESCRIPTION

**Lectra Sol TC** was designed to clean electrical circuits, contacts, motors, etc., but can be used for heavy-duty degreasing and parts cleaning. Will not harm electric insulation or metals. It thoroughly removes grease, oil, tar, wax, and lubricating compounds on electric motors, generators, and alternators, instrument panels, electric clutches, insulation, coin operated machines, telephone equipment, contact points, traffic signal equipment, printing equipment, and printing plates.

---

#### FEATURES

- Non-conductive
- 32,000 dielectric point
- Non-gummy
- No flashpoint
- Stainless
- No moisture
- 30-second dry time
- Current does not have to be turned off during application
- 16 oz. aerosol can
- Also available in bulk

---

#### HOW TO USE

**Aerosol:** Spray surface until well saturated. Operate switches or relays while being sprayed to assure complete cleaning.

**Bulk:** Brush, spray, dip or wipe on.

---

#### SPECIFICATIONS

<b>Physical Form</b>	Clear Liquid
<b>Color</b>	White
<b>Odor</b>	N/A
<b>Specific Gravity</b>	1.4
<b>Flash Point (TCC)</b>	None
